REGULAR MEETING OF CHAMBER OF COM.

LARGEST ATTENDANCE FOR SOME TIME.

SEVEN MEMBERS ADMITTED

Effort Made to Get Ship Yard Workers to Locate Here; Memorial Day Celebration Outlined.

There was one of the liveliest meetings of the Chamber of Commerce held in several months, in the library building, Friday night of last week. The attendance was surprisingly large, several women being in the audience, and much interest was manifested in the many questions that were brought up for discussion, the principal topics being that of The Stearns Electric Safety Razor, the Memorial Day celebration, a boat landing for the pier, and the continuation of the Tent City Company.

Ship Yard Workers Desired.

R. L. Obarr opened up the question of making an effort to induce some of the men who are employed in the ship yards at San Pedro and Wilmington to reside in Huntington Beach, saying that there are a large number of vacant residences here that can be used at reasonable rentals. Mr. Obarr thought a committee should be appointed to secure a list of vacant houses and secure transportation facilities.

President French suggested that the matter be left with the manufacturing and commerce committee.

Dr. Wilson said the thought was a good one, and should be carried out. He said we have the houses, and a committee should be appointed to go right after the people to occupy them.

City Attorney Alex. P. Nelson stated it was the right idea, as he had noticed the trainloads of workingmen that made the daily trip to the city, and he believed that if the matter was properly taken up tenants could be found for every house in the city.

W. C. O'Connor said that he was recently in San Pedro and noticed five trains of five cars each leave for Los Angeles.

M. A. Turner suggested that it might be a good plan to have some cards printed and handed to the workingmen and ask those who desired such a change to give their names and addresses.

W. R. Osborne, agent for the Pacific Electric, was called upon, and said that in answer to some remarks that had been made criticising the service on some of the lines, said that first of all he desired to say that it was the best that could be given at certain times of the day under the circumstances, as company officials had orders from the Federal authorities to take care of the ship yard workers first, regardless of how the service was affected on other lines. Therefore, he said, it might happen that in the rush hours there would be no service whatever on some line. The small cars were run over the Huntington Beach-Newport line in the morning, consequently they were behind the schedule.

Mr. Osborne said he knew of no reason why some of the men in the ship yards should not reside in Huntington Beach, and assured those present that if the workers were here the service would be speedily provided, without any effort on the part of the Chamber of Commerce, as the Government rules would compel the company to transport the men to their work.

The remarks by Mr. Osborne were freely applauded, and demonstrated the fact that Mr. Osborne is a live wire citizen and interested in the welfare of the community.

President French said that everybody agreed that the move was a good one, but the question was how are results to be accomplished.

The matter was disposed of on motion by Mr. O'Connor, seconded by Mr. Nelson, that the question be left with the committee on manufacturing and commerce, which prevailed by unanimous consent.

Miscellaneous Questions.

F. H. McElfresh, chairman of the finance committee, reported that all obligations for the community events had been taken care of, and that there was no canvass for contributions for funds for the Educational Fair.

V. B. Brown, principal of the High school and chairman of the committee having charge of the Educational Fair, reported that he thought considerable good had followed the fair, as several of the outside districts had been brought into closer relations with Huntington Beach. Mr. Brown said that Harold H. Campbell, principal of the Grammar school, is entitled to the credit for the fair, and he should have been chairman. H. O. Ensign, principal of the Ocean View school, was also entitled to credit for assistance rendered. The Huntington Beach band and the merchants for closing should also be given credit. Mr. Brown said he would render a written report at the next meeting.

Mr. Campbell replied that he desired whatever credit was due the Grammar school be given the entire faculty, as they had all worked faithfully.

President French said that we were very fortunate in having such boosters in charge of the public schools, and was gratifying to the old wheelhorses to have such valuable assistance in the conduct of civic affairs.

Mr. McElfresh asked if it was the desire of the Chamber of Commerce to have the Educational Fair an annual event, and President French replied that he understood that it was. However, no definite action was taken on the suggestion.

Mr. O'Connor moved that the report of the committee be accepted, and a vote of thanks tendered them, which carried after being seconded by Dr. Wilson.

Dr. Wilson called attention to the fact that the Chamber of Commerce was behind the High school lecture course, and there was but one more number, the Home Talent entertainment, to be given Friday evening, May 10th. Everybody, he said, should get out and work for the success of the last number.

Mr. McElfresh moved that a committee of three be appointed to sell tickets for the entertainment, which prevailed after being seconded by Mr. O'Connor.

Mr. Obarr called attention to Saturday being the last day to subscribe for Liberty bonds, saying that the names of all slackers would be published.

Memorial Day Program.

Mr. O'Connor read a tentative outline of the program for the Memorial Day services:

School children, with members of the G. A. R. and W. R. C., march out on the pier as in the past, and children throw flowers on the waves.

Trip to the cemetery to decorate the graves of departed heroes.

Free coffee for all at noon.

In the afternoon the Boy Scouts of Orange county and the High school cadets will march, and halt at Main and Walnut, where the flag raising will take place. There will be the Stars and Stripes at the top, then the service, and liberty flags.

The Junior Red Cross of the Grammar school will give a pageant, and an outside band may be secured to play with the home boys.

Judge Copeland inquired if the Memorial Day services would be termed a community event, and said that if it was then an effort should be made to interest the schools in the outside districts by having floats, or choruses, or something in which each of the schools might be proficient in. For floats, he said ranchers might fix up hay racks.

Mr. McElfresh told of visiting a recent entertainment given in which the various schools of Long Beach participated, being grouped and having floats.

On motion of Dr. Wilson, it was decided to give a good flag for the outside school having the largest percentage of the enrollment in the parade.

R. C. Turner, who was appointed to take up the matter of making decorations with the Woman's Club, reported the work had been completed, and was a splendid tribute to those who had charge of the work, especially to Miss Bertha Proctor, who was the designer, and Mrs. C. W. Sprotte, chairman of the committee. Mr. Turner displayed one of the flags and streamers for running across the street, and a rising vote of thanks was tendered the Woman's Club for their patriotic work.

The Yacht Race June 2.

A letter was read from the commodore of the Newport Yacht Club, calling attention to the yacht race to be given by the club Sunday, June 2nd, the turning point to be at the Huntington Beach pier. As this race was to be an annual event, it was suggested that the Huntington Beach Chamber of Commerce donate a cup for the advertising that would follow.

TWO STARS FOR OUR HONOR FLAG.

The following table showing the glorious manner in which every city and town in Orange county went after the honor flags in subscribing for the Third Liberty loan was furnished Judge Louis A. Copeland, chairman of the committee having charge of the drive in this community, by R. L. Bisby of Santa Ana, who had charge of the county campaign.

The "HF" following each of the names indicates that an honor flag has been earned, and the stars shows the number of stars that will be on the flags, one star being credited for each time the quota is doubly subscribed.

It will be noticed that Brea, the prosperous oil city, is a big winner in the contest for honors, having gone safely "Over the Top" five times.

Buena Park, La Habra and Huntington Beach tied for second honors, so far as stars are concerned, but the former communities lead in the percentage of oversubscription.

The total for Buena Park is more than three times the allotment, and La Habra is just three times as much, while Huntington Beach is a little more than two and one-half times.

SAFETY RAZOR IS GIVEN ENDORSEMENT

CHAMBER OF COMMERCE ACTS FAVORABLY.

NEW INVENTION EXPLAINED

Factory Will Be Established Here If Stock Can Be Sold; Dr. Murphy and Mr. Helme Tell of Possibilities.

The unusually large attendance at the Chamber of Commerce meeting, Friday evening of last week, was largely due to the fact that there would be representatives of the Stearns Safety Razor Co. attend and explain the possiblilities of the new invention.

The question was taken up just after the question of securing some of the workers at Wilmington and San Pedro for the vacant houses in this city, and M. E. Helme, secretary-treasurer of the corporation, stated that he noticed that all were interested in the question of increasing the population of the city and he thought the best way would be to establish factories here that would employ labor and support families.

Mr. Helme said he was confident that the Stearns safety razor was one of the greatest inventions of the age, otherwise he would not be wasting his time on it and asking others to become interested. There were plenty of men in other towns, he said, who would take hold of it, but they desired to remain in Huntington Beach if they could do so. No bonus was being asked, but the company desired to dispose of enough stock to place the razor on the market in commercial quantities.

Mr. Helme introduced Dr. Frank W. Murphy, a former physician of Santa Ana, who he said could tell something of the selling end of the business.

Dr. Murphy has a contract with the company to handle the output of the factory east of the Mississippi river, and told how he had spent several months in the east, mostly in Ohio, his former home, and ... to were to purchase it when it was ready for delivery. He read letters from medical men of high standing, commending the razor; also a letter from Myron T. Herrick, former governor of the Buckeye state, and at one time ambassador to France.

He said that every hospital in which the razor had been shown was ready to buy the instrument, and that all authorities agreed that the razor was of great value to them on account of being able to dry-shave around a wound, and the work could be done so much more rapidly than in the old way.

Dr. Murphy said there were 36,000 hospitals in the United States, and that they would probably use on an average of five of the razors. Then there were a large number of penal institutions where they could be sold. Some of the barbers with rich clients would also use them for neck shaving. There were also thousands of physicians who would buy one.

Mr. Helme said later that the razor could be manufactured for about $3, but they were not quite sure, as metal was continually advancing.

It was suggested that a demonstration of the razor be made, as there were some who had not seen it work. Mr. Helme attached a long wire to the socket in the furnace room and mowed off some of the beard from the patriarchal countenance of L. W. Stearns, father of the inventor of the razor. It was then shifted to one of the forearms of Dr. Wilson.

Dr. Wilson said that everybody knew Mr. Helme, and he felt that the Chamber of Commerce owed it to these men to do something for them; but as no bonus was asked, there appeared to be nothing to do but to endorse their proposition, and he moved that the Chamber of Commerce endorse the Stearns Electric Safety Razor and the matter be referred to the committee on manufacturing and commerce, and the motion prevailed without dissent, after being seconded by F. H. McElfresh.

REGULAR MEETING OF THE CITY TRUSTEES

BOAT LANDING FOR PIER DISCUSSED.

$100.00 FOR THE RED CROSS

Some Streets Will Be Improved; Wire Protection For Lights On Pier; Approach to Pier to Be Paved.

The Board of Trustees has gone on record several times in the past relative to paving of the approach to the pier, but the much discussed question was settled for keeps, at the meeting Monday night, when City Manager Geo. W. Spencer was directed to proceed with the work at once, beginning at Ocean avenue. However, the same order has been given before, and still the work was never started; but there appears to be no question about the matter this time, as Mr. Spencer was very careful in having an expression from each member of the Board, so that there would be no "calling it off after the meeting," as in the past.

That Boat Landing.

The question of constructing a boat landing at the end of the pier was called to the Board's attention by Wm. C. O'Connor, on behalf of the Chamber of Commerce.

City Manager Spencer stated that he did not think a suitable landing could be constructed for less than $1,500. Trustee Drew asked if a landing would pay as an investment, and Mr. O'Connor replied by saying that the pier cost $70,000, and asked how much it was now paying on the investment. He considered any reasonable sum for a boat landing a good investment from any standpoint.

The landing was favored by President French and Trustees Vavra, Chapin and Decker, but all were agreed that the funds were not in sight at present.

The suggestion was made by a spectator that the amount be included in the tax levy for next year, and Trustee Vavra said he doubted whether the people would stand for that or not. It was then suggested that an expression of public sentiment might be gained by the fact being published in the News that if the taxpayers were willing the trustees would include the amount required for a boat landing in the levy this fall.

Let every taxpayer who is interested in this matter, either for or against, express their opinion to the trustees prior to the time the next tax levy is made up. A motion by Trustee Vavra that the trustees go on record as favoring a boat landing when a way was found to provide funds for it prevailed unanimously.

If $1500 were placed in the tax levy for this purpose, the sum to be paid by each taxpayer would be insignificant, except for the larger ones, where it would amount to a considerable sum. However, there would be no relative difference, as the larger ones are more able to pay a larger sum.

Some Streets Will Be Improved.

City Manager Spencer reported that the county was paving the Newland road from the city limits to the Newport mesa with decomposed granite, but he would not recommend this for the street inside the city. He stated that to pave it would cost about $10,000. Trustee Drew said there was no use talking about paving. It was decided to level up the surface. Trustee Vavra said there should be something done to provide better roads up to the Grammar school, as the auditorium was being used more now than ever before, and suggested that Palm avenue be improved. After considerable discussion, it was decided to improve Orange avenue from Main to Seventeenth and Palm from Main to Twenty-third, and that the street committee—Trustees Vavra and Decker—with City Engineer Spencer, inspect the streets and report at the next meeting where improvements should be made. The work will be done by Earl Farrar, with his tractor and a chisler, similar to the work done last year.

A letter was read from the South Coast Improvement Association, calling attention to the good work that had been done in the past in securing the right of ...

of Newport harbor, and asking that the city extend its subscription of $25 per month, for a period of six months. On motion of Trustee Drew, seconded by Trustee Vavra, the suggestion was concurred in.

Trustee Chapin brought up the matter of protecting the light globes on the pier, saying that something should be done. Mr. Spencer stated that the breakage amounted to about $200 per year. This destruction of public property is by those who fish from the pier, and it is to be regretted that they should be so careless.

Mr. Spencer was asked to get prices on wire protectors for the lights.

An appropriation of $100 was made to the Red Cross.

UNION MEETING WAS WELL ATTENDED.

MRS. McNAUGHTON TOLD OF GERMAN SAVAGERY.

The union meeting in the Baptist church, Sunday night, was well attended. There were no services at the Christian church, and Rev. Floyd W. Farley and his congregation united with the Baptists.

The speaker of the evening was Mrs. J. P. McNaughton, who was in the missionary service for 20 years in Armenia. Mrs. McNaughton said that while the brutality of the Turks had horrified the world for many years, the conditions were much worse after the German officers took charge of the Turkish army.

One instance cited was that shortly after the Germans assumed charge of affairs, such Armenians as could do so were given an opportunity to pay a certain sum of money, for which they would be guaranteed protection. In little more than one month all of those who had paid were arrested and told they would have to embrace the Moslem religion and join the army, and those who refused to obey were executed.

A considerable sum was raised for the Armenian cause.

JUDGE COPELAND WAS THE FOUR-MINUTE MAN.

HOLLY SUGAR CORPORATION BIGGEST BOND BUYERS.

Judge Louis A. Copeland was the "Four-Minute" man at the Princess Saturday night. When speaking of the sale of Liberty bonds, Judge Copeland stated that the Holly Sugar Corporation purchased $5000 worth, being the largest buyers in this district. The next largest sums were taken by Leo Borchard and Frank Borchard, wealthy ranchers, who subscribed $4,500 and $4,000 respectively. The next one was A. E. Yale with $2,200.

The Holly Sugar Corporation subscribed $10,000 of the second loan, being almost one-third of the total sold in this district.

THE GRAMMAR SCHOOL EDITION NEXT WEEK.

THERE WILL BE FOUR PAGES OF SCHOOL NEWS.

The annual Grammar school edition of the News will be published next week, and there will be four extra pages devoted entirely to the Grammar school, being one more page than last year. There will also be about 400 extra copies printed, which will be mailed all over the country.

PAGEANT WILL BE GIVEN IN CIRCLE PARK.

FRIDAY AFTERNOON, MAY THE TWENTY-FOURTH.

The May Festival Pageant by pupils of the Grammar school will be given in Circle Park, Friday afternoon, May 24. The pageant in the park last May was one of the most interesting events of the entire school year, and it will no doubt be of equal interest this year.

BIG IMPROVEMENT AT PACIFIC ELECTRIC STATION.

Some time ago Agent W. R. Osborne of the Pacific Electric Railway Company stated that he was making an effort to have the station repainted, and he has been successful, and the improvement is a commendable one, and indicates a progressive spirit on the part of company officials.

We'll Fix It

If your watch or clock is out of the running, bring it to us. We'll fix it and give it back to you in nearly as good a condition as when it was new.

Watch and clock repairing is one of our hobbies. We are really as particular about having you satisfied with a repair job as we are having you satisfied with the goods you buy from us.

To get the greatest amount of satisfaction out of either a watch or clock, it must be inspected and oiled every year or two—once a year is better.

You wouldn't think of buying a new automobile and then trying to run it without oil; neither should you think of letting your watch or clock run year in and year out without a drop of oil. Better let us look after it for you.

RED CROSS DRIVE WILL BEGIN MAY 20

LAST DRIVE WAS IN JUNE, 1917.

TRUSTEE VAVRA IS CHAIRMAN

All Will Be Asked To Donate Something; Quota Has Not Been Announced; $1,500 Last Time.

The next drive for funds by the American Red Cross will open Monday morning, May 20, with Trustee Joseph Vavra of the Huntington Beach Nurseries as chairman of the committee having charge of the campaign in this district.

The total asked for is the same as last year, when $100,000,000 were quickly subscribed. At that time the quota for the Huntington Beach district was $1,500, and the amount subscribed was $5,237.11, three and one-half times the amount, which was the best showing made by any city in Southern California.

The first subscriber to the second call for Red Cross funds was the City of Huntington Beach. Trustee Vavra called the Board's attention, Monday night, that the campaign would be over before the next regular meeting, and asked the trustees to donate $100, being the same amount as subscribed last June.

Trustee Drew moved that $100 be donated to the Red Cross, and Trustee Decker seconded the motion, and Clerk Chas. R. Nutt was directed to draw a warrant for that amount at once, so that it would be available when desired.

NEWS OF TALBERT & VICINITY

Junior Red Cross.

The Junior Red Cross entertainment at Japanese hall, Friday night of last week, was an unbounded success. A small pig was purchased from Robert Wardlow and was raffled off for $18.80, George Bradley being the winner. Ten boxes of candy were auctioned off, and none of them sold for less than $1. Three cakes that remained after ice cream had been served sold for 75 cents, $1 and $1.50. R. L. Callens was a big success as auctioneer, and if no one else bid he would do so himself. Those having charge feel especially grateful to J. G. Parsons and Lew Ludwig for their assistance. Mr. Parsons donated four boxes of the candy and his truck for the hauling, and loaned 50 yards of bunting for decorating purposes. Mr. Ludwig donated six boxes of candy and loaned ice cream packers and flags, dishes and spoons. Mrs. A. W. Walker made the ice cream and punch, being nine gallons of cream and five of punch. The net receipts amounted to $47.65. A patriotic program was given at the beginning, as follows: Prayer, Rev. J. Alvah Andrews; "Star Spangled Banner," audience; Children's Salute; Questions and Answers, students and teachers; "America," audience; Address, Rev. Andrews; Recitation, "What Became of Kaiser Bill," Willie Lamb; Penny Drill, primary grade; Song, Roy Kanagaye, Japanese; song, "Over There," school; Recitation, "If You Want to Swat the Kaiser," Wilma Plavan; Solo, "Joan of Arc," Grace Bradley; Dialogue, Ralph Miller as Doctor, Gladys Wardlow as Red Cross nurse, and four fifth grade pupils as patients; Song, "Keep the Home Fires Burning," audience. One of the features of the program was the recitation by Willie Lamb, 3-year-old son of Mr. and Mrs. Earl Lamb, who was placed on a table, and spoke in a clear, audible voice that could be heard by all. He said: "Kaiser Bill went up the hill, to take a look at France. Kaiser Bill came down the hill, with bullets in his pants."

Sunday In Park.

Mr. and Mrs. H. J. Lamb, Mr. and Mrs. Arthur M. Pryor, Mr. and Mrs. J. T. Stockton of Wintersburg, Mr. and Mrs. D. G. Wettlin of Orange, Mrs. Hadley Pryor and family of Tustin, Earl Pryor of Camp Kearny and Everett Stockton of Anaheim enjoyed a picnic in Orange County Park, Sunday.

WEEKLY GREETING.

He who dwells in the temporary Semblances, and does not penetrate into the eternal Substance, will not answer the Sphinx-riddle of Today, or of any Day. For the substance alone is substantial; that is the law of Fact; if you discover not that, Fact, who already knows it, will let you also know it by and by!

What is Justice? that, on the whole, is the question of the Sphinx to us. The law of Fact is, that Justice must and will be done. The sooner the better; for the Time grows stringent, frightfully pressing! "What is Justice?" ask many, to whom cruel Fact alone will be able to prove responsive. It is like jesting Pilate asking, What is Truth? Jesting Pilate had not the smallest chance to ascertain what was Truth. He could not have known it, had a god shown it to him. . . He looked at Truth; and discerned her not, there where she stood.—Thomas Carlyle.

MUNICIPAL GAS PLANTS ARE SCARCE.

According to the annual report just issued by State Comptroller John S. Chambers, there are but three municipalities in the State of California that operate gas plants, being Huntington Beach, Newport Beach and Santa Clara.

The 1910 census figures give the population of the three cities as follows: Santa Clara, 4348; Newport Beach, 445, and Huntington Beach, 815.

The report gives the total sales of gas and other receipts in Santa Clara as $15,904.95; total ordinary expense, $14,594.64; bond interest and redemption, $1,650.00; leaving a deficit of $239.73. For Huntington Beach the gas sales totalled $6,420.17, and other receipts are given at $1,504.67, making the total ordinary receipts $7,924.84. Total ordinary expense, $7,662.16, and bond interest and redemption, $2,000, a total of $9,662.16, showing a deficit of $1,737.32. The totals for Newport Beach are: Gas sales, $5,949.47, and other receipts $516.00, aggregating $6,465.47. Total ordinary expense is given as $7,031.26, with bond interest and redemption $2325, a total of $9,356.26, disclosing a deficit of $2,890.79.

The total deficit for the three cities is $4,867.84. However, there is very little significance to be attached to the fact that the gas plants of these three cities have been operated at a small loss, as the consumers have profited by the low rates that have been charged for gas.

Eliminating the charges for bond interest and redemption, which it was not intended the earnings of the systems should take care of, the plants in Huntington Beach and Santa Clara show a small profit, as follows: Santa Clara, $1,420.27; Huntington Beach, $262.68; while Newport Beach has figures on the red ink side of the ledger of $565.79.

TWO STATES DRY MAY FIRST.

May Day was the date set for the passing of the saloons from the states of Michigan and New Hampshire, when the people of Michigan voted to banish King Alcohol, Nov. 7, 1916, by a majority of 68,624, and the legislature of New Hampshire, April 17, 1917, passed a drastic dry law.

In the little commonwealth of New England there were 573 public drinking places, and in the larger state of Michigan 3,068, and 59 breweries. These required 2,338,000 bushels of grain annually. There were 1250 bars in Detroit, and the estimated investment in the liquor business in Michigan is $12,000,000. Some of the breweries have announced they will continue and manufacture soft drinks.

SENATOR JOHNSON'S MISTAKE.

Senator Hiram W. Johnson of California disappointed many of his friends last week when he allied himself with such men as Reed of Missouri and Hardwick of Georgia, whose loyalty is of the doubtful variety, in opposing the bill before the senate which had been asked for by the Department of Justice in order that enemies of the Government might be punished. It is difficult to understand why any loyal citizen should object to laws that will enable the officials to punish disloyal citizens.

The bill referred to prohibits, during the war, of any persons willfully uttering "disloyal, profane, scurrilous or abusive language about the form of the government of the United States, the Constitution, the military or naval forces, the flag or uniform of the United States or any language intended to bring the form of government of the United States, the Constitution, the military or naval forces, the flag, or uniform of the United States, into contempt, scorn, contumely or disrepute."

It also penalizes languages "intended to incite, provoke or encourage resistance of the United States, or promote the cause of its enemies" and "willful display of the flag of any enemy nation."

Another important provision would punish statements designed to curtail production of war necessities, or the teaching or advocacy of any of the prohibited acts in the measure, while another general and broad provision makes the penalties apply to those "who by word or act support or favor the cause of any country with which the United States is at war or by word or act oppose the cause of the United States therein."

Another section gives the postmaster-general the power to exclude any publication from the mails which he deems in any way violates the espionage laws.

There appears to be but little excuse why any senator should oppose such laws at this time. Senator Johnson pointed out that the passage of such laws would be an abridgment of free speech and a free press.

The Government has been too lenient with many citizens who are enjoying its protection and expressing an opposition to the President's war program, which is nothing more than an endorsement of the Kaiser and his lieutenants, who are seeking to enslave the people of the world by fastening German kultur upon them.

ELEVEN STATES HAVE RATIFIED DRY AMENDMENT.

The legislative bodies of eleven states have already ratified the dry amendment, prohibiting the manufacture and sale of alcoholic liquors in the United States, being almost one-third the required number to make the law operative.

This is glorious news for those who have been battling for so many years against the legions of King Alcohol and his allies. The most satisfactory part of the favorable action taken by the legislators of the different states is that five of the total number are in what is generally termed the wet group of states, which is no doubt an agreeable surprise to many of the dry workers themselves. The wet states are Kentucky, Maryland, Texas, Delaware and Massachusetts.

Those having charge of the movement have lost but two skirmishes, which occurred in the vicinity of the capitol buildings in Albany, N. Y., and Providence, R. I., the legislators in those states preferring to shift the responsibility to the people for a referendum vote. The fact that the ratifications in most instances have been almost unanimous is conclusive evidence that the law will go "over the top" next year, when most of the state legislatures will convene in regular session. The vote in the so-called wet states indicates that politicians of all parties have seen that the wind is blowing like a hurricane toward the dry cause, and that it is no longer unpopular to be classed with those who, a few years ago, were designated as fanatics and long hairs because of their views on the liquor question.

If the constitution is amended, it will require the ratification of the amendment by 36 states, such an amendment requiring a two-thirds vote. Therefore, it will be necessary for 25 more states to follow the example of the eleven that took the initiative in this great struggle to free the American Union from King Alcohol.

The states and the date of ratification follow: Mississippi, Jan. 9; Virginia, Jan. 10; Kentucky, Jan. 14; South Carolina, Jan. 17-23; North Dakota, Jan. 24-25; Maryland, Feb. 3; Montana, Feb. 19; Texas, March 4; Delaware, March 18; South Dakota, March 20; Massachusetts, April 2.

It will be noticed that the Southern states have taken the lead in the acting upon this amendment, as the first four to ratify were all among that section known as Dixie.

From a political viewpoint the Democrats have the best of the argument, as only four of the eleven states voted for the Republican presidential candidate in 1916—the little state of Delaware, the two Dakotas and Massachusetts. There has been a decided change in the sentiment among the Democratic politicians in the past three years, as the party vote on the Hobson amendment in the lower house of Congress, December 22, 1914, was as follows: For the amendment: Democrats, 114; against, 141. Republicans—For, 67; against, 46.

For is not Truth the master always, and does she not have the power and hold the book?—Thackeray.

The fear of disease and the love of sin are the sources of man's enslavement—Mary Baker Eddy.

The first thing a kindness demands is acceptance, the second is transmission.—George Macdonald.

Cheerfulness is an excellent wearing quality.—Samuel Smiles.

ALL GRAMMAR SCHOOL TEACHERS REAPPOINTED.

LUNCHEON SERVED TO BOARD MEMBERS.

At a meeting of the Grammar school board, Tuesday afternoon, the entire faculty was re-appointed by unanimous consent, and the salaries were advanced $15 per month for Supervising Principal Harold H. Campbell and all of his assistants, except for music and drawing, where the increase was $31. Also where there is extra or special work increase will be $20.

While this is good news for the citizens of the district, it is nothing more than has been anticipated, as it would be difficult to find a more capable, agreeable and efficient staff of teachers than Mr. Campbell and his coworkers. Mr. Campbell and all of the teachers, with two exceptions, have signified their intention of remaining for another year.

Besides Mr. Campbell, the faculty is Franklyn E. Skinner, vice-principal and eighth grade; Boyden Hall, seventh and eighth grades; Miss Edna Nichols, seventh grade; Miss Lola Clark, sixth grade; Miss Anna Davis, fifth grade; Miss Annie O'Keefe, fourth grade; Miss Georgia Stebbins, third grade; Miss Gladys Grabill, second grade; Mrs. Caroline Thompson, first grade; Miss Mildred Mitchell, special work in second, third, fourth and fifth grades; Miss Lucile Davenport, music and drawing; Miss Thelma Price, kindergarten director; Miss Imogene Pickrell, kindergarten assistant.

A dainty luncheon was served by the eighth grade girls in the Household Arts department to the board members, Mrs. W. T. Newland, Joseph Vavra and W. L. McKenney, Mrs. Vavra and Mrs. McKenney, Mr. and Mrs. Campbell and other members of the faculty that were not engaged at the time.

The board is to be complimented upon the raise granted in salaries, as there is no question but what the educators of California are underpaid for the great service they are rendering the public—especially is this true in the Grammar grades. Therefore the result is there are but few instructors who are contented to remain in the Grammar grades on the ridiculously low wages paid, but desire to advance to High school work, where the salary is considerably more attractive.

The only fault the News has to find with the increase is that it was not large enough.

Miss Price and Mr. Hall receive $63.75 per month, the others $60, except Miss Pickrell and Miss Mitchell, who are paid $45 and $37.50 for their services.

SPECIAL SERVICES AT THE TALBERT CHURCH.

PRESIDING ELDER WILL TALK SUNDAY EVENING.

There will be special services at the Talbert church Sunday evening at 8 o'clock, when Rev. C. R. Gray, presiding elder, will deliver the sermon. A most cordial invitation is extended the entire community. The Epworth League will meet at 5:30.

The News Office prints fine stationery of all kinds.

RED CROSS

At the meeting of the Huntington Beach Red Cross auxiliary to Santa Ana Chapter, held at the Red Cross room at the public library, on May 8, the newly-elected officers for the ensuing year were installed and qualified: Mrs. H. L. Heffner, chairman; Mrs. Louis A. Copeland, vice-chairman; Miss Mary Turner, treasurer; Mrs. Alex. P. Nelson, recording secretary.

The following were appointed by the chairman as chairmen of the following named days of each week:

Tuesdays—Mrs. H. L. Heffner, chairman of the day; Mrs. C. T. Ingersoll, chairman of hospital garments; Mrs. Carl Olson, chairman of socks.

Wednesdays—Miss Mary Turner, chairman of the day; Mrs. M. A. McCreery, chairman of hospital garments; Mrs. H. V. Anderson, chairman of socks.

Thursdays—Mrs. Alex. P. Nelson, chairman of the day; Mrs. Ned Brown, chairman of hospital garments; Mrs. S. A. Moore, chairman of socks.

Fridays—Mrs. Louis A. Copeland, chairman of the day; Mrs. W. J. Bristol, chairman of hospital garments; Mrs. H. A. Bowman, chairman of socks.

Members of the Eastern Star will meet with the Red Cross the second Thursday in each month and assist in the work.

The Red Cross wishes to announce to the public that anyone knowing of Huntington Beach boys going into service, who are desirous of having a comfort outfit, will be furnished with one by communicating with the Red Cross headquarters.

There is imperative need of speeding up the work of knitting and sewing for the soldiers, and all are earnestly requested to assist to the utmost in the work.

FRANCES R. NELSON,
Recording Secretary.

RAINFALL TO DATE IS EXCEEDINGLY LIGHT.

HOWEVER, CROP PROSPECTS ARE SATISFACTORY.

The rainfall to date is less than any season since the establishment of the Holly sugar factory weather bureau, in 1911, except the season of 1912, when the precipitation was .39 of an inch less than this season to date.

However, this does not indicate that this is a dry year, so far as good crops are concerned, as the crop conditions at this time have seldom been more encouraging.

M. A. McCreery, of the agricultural department of the Holly Sugar Corporation, states that there is usually but little rain after this date, but in 1913 there was .71 of an inch fell in June.

The showers for this week amounted to .12 of an inch, making the total for the season to date, 8.78. The total for past years: 1917, 13.99; 1916, 16.29; 1915, 17.01; 1914, 15.21; 1913, 8.83; 1912, 8.39; 1911, 10.50.

GRAMMAR SCHOOL NOTES

(By Prof. V. B. Brown.)

The High school tennis team was completely vanquished at Fullerton, Wednesday. The best showing was made in boys' doubles, Arthur Johnson and Kenosuki Tsuji playing for Huntington Beach. They have been consistently practising, and they play their game hard. This is their first year at the game. Later we shall hear from them, as also from some of our girls, who are showing good promise, but have not practised enough to meet successfully a strong team like Fullerton.

EARTHQUAKE DAMAGE AT SAN JACINTO.

ESTIMATED LOSSES TOTAL SUM OF $131,900.

According to a list published in the San Jacinto Register last week, the total loss amounted to $131,900. There were 31 different losses in the business district, on buildings and stocks, ranging from $250 to $18,000, totalling $117,700. Seventeen residences were damaged in sums from $200 to $2,500, with a total of $14,200.

Plans are developing rapidly for the erection of new one-story buildings of concrete. Twenty-four buildings are mentioned as having been damaged in the business district.

The population of San Jacinto in 1910 was 898, and is therefore probably no larger than Huntington Beach; and one can imagine how much would be left of the business district here if 24 buildings were wrecked.

The damage in Hemet is estimated at $75,000, and the population of that city in 1910 was 992.

THE TEMPERATURE FOR THE MONTH OF MAY.

"THE ZEPPELINS' LAST RAID" SATURDAY NIGHT

Frank Daniels Here Sunday Night.

"FORBIDDEN PATHS" THE ATTRACTION THURSDAY.

The chief attraction at the Princess Saturday evening will be "The Zeppelins' Last Raid," which those who have seen the picture pronounce a very thrilling one. One of the scenes shows where a church is blown to atoms. Big buildings are wrecked, killing hundreds of citizens.

This picture was shown at Quinn's Rialto theatre in Los Angeles only six weeks ago, at 25 and 35 cents, and all may see it Saturday night for the usual prices.

Show starts promptly at 8 o'clock. Doors open at 7:30.

Sunday Night.

"What Happened to Father" will head the bill Sunday night, and Frank Daniels, the comic opera king, will be the star. Frank Daniels made a great hit on the stage in "What Happened to Father," before taking up his residence in filmland. The play is a Vitagraph Blue Ribbon, in five acts, which is a good guarantee.

He must use the new automobile he has given his daughter, a high powered, six cylinder self-starter and self-steerer. Father conquers the speed demon and after many gyrations, arrives at his destination.

Consternation reigns on the stage of the comedy theatre when Father lays down the ultimatum that Toddy Tanglefoot is to play leads. The leading man retires, so it is up to Father to play the part himself. Without a rehearsal, he enters the lists.

It is impossible to describe the funny, ludicrous actions of Frank Daniels. He is egged and hissed off. He makes his exit hurriedly in his speed demon when fate overtakes him and he finds himself in a tree pursued by a maddening throng of policemen and citizens. Poor Father is cast in the jug with three rough-necks. He throws a fit and when the jailor enters to quiet him, the three thugs escape. Consternation reigns and in the pursuit of the escaped criminals, Father is forgotten.

Can you imagine Father explaining what happened to him?

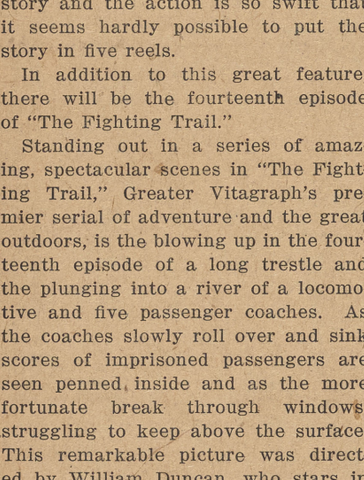
Can you imagine what did happen to Father? Words cannot tell this story and the action is so swift that it seems hardly possible to put the story in five reels.

In addition to this great feature, there will be the fourteenth episode of "The Fighting Trail."

Standing out in a series of amazing, spectacular scenes in "The Fighting Trail," Greater Vitagraph's premier serial of adventure and the great outdoors, is the blowing up in the fourteenth episode of a long trestle and the plunging into a river of a locomotive and five passenger coaches. As the coaches slowly roll over and sink scores of imprisoned passengers are seen penned inside and as the more fortunate break through windows, struggling to keep above the surface. This remarkable picture was directed by William Duncan, who stars in the serial with Carol Holloway, both of whom enjoy enviable reputations for skill and daring before the camera.

Thursday Night.

The program Thursday night will consist of the "Forbidden Paths," a Paramount production of the highest order. Vivian Martin and Sessue Hayakawa are to be seen in the leading roles.



James Thornton is a wealthy importer of Japanese art in San Francisco. His daughter, Mildred, is in love with a young fellow, Harry Maxwell. Harry looks upon her as a child and retains his old attitude of affectionate indifference to her. Sato is employed by her father and later made a partner in the business. He is deeply in love with Mildred, but the fact of their difference of race restrains him from showing it.

Harry Maxwell is appointed to a position in the American Embassy in Mexico City. Mildred is heart-broken over his going.

In Mexico City Harry meets a demimonde, Benita. She likes him from the first and seeing that he does not suspect what she really is, hides the fact from him. She plays on his sympathies until, finally, Harry marries her. The American Ambassador, learning of his intention, races to the church and arrives just after the marriage has been concluded. He denounces Benita and tells Harry the kind of woman he has made his wife. Harry is stunned. Benita cannot deny it, and Harry goes home. Meeting Mildred again, he now realizes what he has lost, and she, in her delight to see him, shows him plainly that she loves him. Sato has to stand aside and watch this love between them.

Harry, now falling in love with Mildred, wires the Ambassador to do anything to get Benita to consent to a divorce. The Ambassador goes to Benita, but succeeds only in arousing her suspicion that there is another woman, and she starts for America.

Harry determines to leave the country and comes to Mildred for a last good bye. They separate, as they think, forever.

Sato has taken the plug out of the bottom of the motor boat and plunged both Benita and himself to death.

The two young people are puzzled over the note, but Mildred says: "Sato has found a way."

Out on the ocean all that is left is a few stray bits of wreckage and Sato's hat, floating on the waves.

TEN YEARS AGO

The Following Items Appeared In the Huntington Beach News of May 8, 1908.

The new High school is now an assured fact, as word has been received that there was no doubt about the legality of the bonds, and the money will soon be available.

The Huntington Beach Juniors were defeated by the High school team in a game of baseball Friday afternoon, by a score of 7 to 9. Wild throws were the chief cause of the Juniors' defeat. The line-up for the winners was: Hall, p; Planchon, c; Thomson, 1b; Plavan, 2b; Worthy, 3b; Phelps, ss; Rogers, lf; Livernash, cf; Farrar, rf. The Juniors: Brooks, p; Philp, c; French, 1b; Pryor, 2b; Livernash, 3b; Reed, ss; Heaston, lf; Philp, cf; Livernash, rf. Umpire, Welsh.

At the semi-annual election of the Board of Trade, Monday evening, the following officers were elected: C. H. Howard, president; W. L. McKenney, first vice-president; A. L. Reed, second vice-president; R. E. Graves, treasurer; A. L. Reed, C. W. Warner, M. D. Rosenberger, R. M. Blodget, A. W. Griffith and Louis Paul Hart, directors. Frank Gibbs, James Cook, B. F. Uglow, Dennis Hallicy, Ned Brown, D. V. Hearn, R. O. Wells, A. H. Nickell, A. B. Sholly and M. C. Marinda were elected to membership. The treasurer's report showed a balance on hand of $142.98. Chairman Warner then appointed J. R. Jolly and S. W. Price to escort the newly elected president to the chair. T. B. Talbert and I. M. Clippinger were appointed to make arrangements with the M. W. A. for holding their annual picnic in Huntington Beach. School Director Warner stated that arrangements had been made with the principal of the Longfellow school of Riverside for holding a session of the Normal training school here in August, and that there would be many teachers present.

At the Commencement exercises to be held in the Auditorium June 2nd the following will graduate: Homer French, Fields Heaston, Leonard Livernash, William Newland, Hans Osterhaus, Robert Philp, Eulallie Reed, Emma Sorenson, Raleigh Vincent and Florence Walker.

L. E. VanWinkle returned to Hemet, Wednesday, being accompanied by his father, J. A. VanWinkle.

Mrs. H. H. Warren of Los Angeles is spending the week with Mr. and Mrs. J. T. Reed.

Mr. and Mrs. C. D. Heartwell and O. F. Heartwell went to Long Beach, Saturday, to meet Governor Sheldon of Nebraska.

J. L. Farrar of Wintersburg has been elected as a delegate to the annual meeting of M. W. A. to be held in Peoria, Ill., in June.

STUDENT BODY NOTES.

(Grace Foley, Press Reporter.)

Friday, May 3, was the date upon which occurred one of the best assemblies of the year. It being the last day of the Liberty bond drive, it was thought expedient for the students to contest for a four-minute speaker. There were five contestants, each having the same topic, "Buy a Bond." Debating Manager Royal Jumper acted as chairman for the assembly, but paused in his duties long enough to make an excellent talk on the efficacy of the Liberty bond as a patriotic measure—as the only measure to win the war. Others who spoke were Margaret Wallace, Grace Foley, Cecil McCoy and Teddy Tarbox. The latter surprised his hearers by his remarkable force of expression and vividness in portraying the national situation. He gained the judges' decision as the best four-minute speaker of the five, and his name will be sent to Washington to be kept on file as a four-minute man.

Military drill is being entered into enthusiastically by both the girls and boys. Cecil McCoy is drill master of the boys and Gladyse Bollon is captain of the girls. The drill is carried out strictly according to military rules as set down in the infantry regulations. It is hoped that the two organizations may have opportunity to show the public their work at a review to be held on the "parade grounds" at the High school.

Friday evening, May 10th, will be the date for the Home Talent entertainment, which promises many delightful numbers.

Forensic will occur this year on May 18th at Santa Ana. Huntington Beach High school will be represented by the following: Marguerite Wright, freshmen; Eva Murdy, sophomores; Royal Jumper, juniors; John Murdy, seniors.

The regular Red Cross drive occurred on Monday from 12:45 until 4:00 p. m. The departments resumed their work where it was left, at the conclusion of the last drive. With the money raised at the various Red Cross benefits a great deal of work has been launched.

Thursday, May 9th, the High school students were favored by a delightful concert by Mrs. Clinton Newland, violinist, accompanied by Miss Clough. The renditions were from Mozart, Bach, Beethoven and Schumann, and were worthy of every consideration given a master artist.

Rev. Floyd Farley talked expressively on the war situation and its termination.

LUMBERMEN'S PICNIC IN COUNTY PARK.

YARDS WILL BE CLOSED ALL DAY SATURDAY.

The lumber yards will be closed all day Saturday, May 11, in order to allow all employees to take part in the lumbermen's picnic on that day in Orange County Park. Chester C. Knight, new manager of the E. K. Wood Lumber Company, reports that a satisfactory business is being transacted by his company.

OF HUNTINGTON BEACH

For any person who contemplates owning his own home or building for investment, the most beautiful site anywhere near the coast is what is known as our Tract 12, in the vicinity of the High school at 17th and Main street.

All large lots, streets paved and graded and all utilities available. Do you realize that hundreds of people have attempted to locate in Huntington Beach in the last year but were unable to secure modern houses in which to live, and in consequence have gone elsewhere? More are coming.

Build for investment, and choose the most desirable site at the lowest price.

REGULAR MEETING OF CHAMBER OF COMMERCE.

(Continued from first page.)

Mr. Obarr said that no cup would be required for this year, but he thought the matter should be taken up for next year, as the commercial bodies of Laguna and Seal Beach were ready to do so. Mr. O'Connor also thought the matter should be acted upon.

Dr. Wilson moved, and Mr. Nelson seconded, that the matter be referred to the committee on reception and entertainment.

Bills for the Huntington Inn for $20 and Carlos Rigdon for $5 were read, and on motion of Mr. Obarr, seconded by Dr. Wilson, ordered paid. The $20 to the Inn was for 20 plates ordered at the banquet when the Associated Chambers of Commerce was here and not used.

Mr. O'Connor said that W. H. Taylor had desired to bring up the matter of a boat landing on the pier, but had gone home. President French, who is also chairman of the Board of Trustees, said that he felt that the board would act favorably on the matter in the near future.

Judge Copeland brought up the matter of the continuation of the Tent City Company, saying that the company would probably be continued if citizens would subscribe $5,000 on five yearly installments.

Dr. Wilson said he was one of the stockholders of the Tent City Company, and he did not consider that anything worth while could be done with $5,000, and he for one would not be in favor of the move.

Mr. Obarr said the money should be raised by property owners, as they would be the greatest beneficiaries.

President French suggested the matter be referred to the committee on manufacturing and commerce, and a special meeting could be called when they were ready to report. R. C. Turner suggested that a committee of two be appointed to see whether the funds could be secured. No definite action was taken.

Seven New Members.

The following new members were admitted: Eugene Sarrabere, the tailor; L. A. Lawton, pool room; John Dalany, fruit store; Antony Rovostsos, candy store; W. R. Wharton, tea and coffee store; F. Woodcutter, priest in charge of St. Mary's church; Union Oil Co., by A. J. Teague. Five of the seven applications were recommended by B. T. Mollica, the shoe dealer and repairer; one by President French, and one by Mr. O'Connor.

SCIENTIST IS MAKING STUDY OF EARTHQUAKE.

Hemet News: Prof. S. D. Townley of Palo Alto, secretary of the American Siesmological society, was a visitor to Hemet, Friday, making scientific investigations of the caprice of the late unpleasantness. He was accompanied by Homer Hamlin of Los Angeles, representative of the society for Southern California.

"From the evidence already at hand it appears that the earthquake was one of the most severe in the history of the state," said Mr. Townley. "And this proves that California earthquakes are not particularly dangerous. It is only a question of building properly. Brick would never withstand earthquake shock. The modern re-inforced concrete makes buildings absolutely secure, and with proper foundations no serious damage can happen to frame dwellings. The results at San Jacinto and Hemet demonstrate these facts.

"The Hemet people should not be alarmed at the little tremblors following the quake. At San Francisco these tremblors came intermittently for three weeks, and our records show that this condition prevailed at San Jacinto after the quake of 1899. It is a natural process, and has never been attended by a severe shake. After a quake there is a settling process, and in California the settling has always been gradual and unattended by severe shakes."

CHRISTIAN SCIENCE SOCIETY.

Christian Science Society services held Sunday morning at 11 o'clock, at the corner of Eighth street and Olive avenue. The subject for Sunday, May 12, will be: "Adam and Fallen Man." Sunday school at 9:30 a. m. Wednesday evening meetings at 8 o'clock. Reading room in church open Monday, Wednesday and Friday afternoons from 2 till 4, where the Bible and authorized Christian Science literature may be read or purchased if desired.
